

School profile statement

At Lismore Primary School we support the right of all members of the school community to access safe and inclusive learning environments, including digital and online spaces. This form outlines the School's roles and responsibilities in supporting safe digital learning, as well as the expected behaviours we have of our students when using digital or online spaces.

At our School we:

- Have a **Student Engagement Policy** that outlines our School's values and expected student behaviour.
- Have programs in place to educate our students to be safe and responsible users of digital technologies;
- Educate our students about digital issues such as online privacy, intellectual property and copyright;
- Supervise and support students using digital technologies in the classroom;
- Use clear protocols and procedures to protect students working in online spaces. This includes reviewing the safety and appropriateness of online tools and communities, removing offensive content at earliest opportunity, and other measures;
 - See: [Duty of Care and Supervision](#)
(www.education.vic.gov.au/about/programs/bullystoppers/Pages/prindutycare.aspx)
- Provide a filtered internet service to block inappropriate content. We acknowledge, however, that full protection from inappropriate content cannot be guaranteed
- Use online sites and digital tools that support students' learning;
- Address issues or incidents that have the potential to impact on the wellbeing of our students;
- Refer suspected illegal online acts to the relevant Law Enforcement authority for investigation;
- Support parents and care-givers to understand safe and responsible use of digital technologies and the strategies that can be implemented at home. The following resources provide current information from both the Department of Education & Training and The Children's eSafety Commission:
 - [Bullystoppers Parent Interactive Learning Modules](#)

Education Rationale

The internet, combined with Lismore Primary School iPads, laptops and video conferencing unit program, offers huge potential benefits for teaching and learning. It offers wonderful opportunities for students and teachers to contribute to the world community on the web.

Students and teachers can:

- explore the world online
- visit museums and libraries around the world
- access rich information resources to support research and investigations
- communicate and collaborate with people all over the world
- publish on the web

Digital technologies also allow us to access online resources and programs that support the development of literacy and numeracy skills including however not limited to Reading Eggs, Kids News, Mangahigh and Mathletics. Some programs and apps use cloud based storage. The Department of Education requires us to notify you that we are doing this, and require permission, as not all cloud storage is based in Australia. Not being based in Australia does not of course mean it is less secure.

Safe, responsible and behaviour

When I use digital technologies I **communicate respectfully** by:

- always thinking and checking that what I write or post is polite and respectful
- being kind to my friends and classmates and thinking about how the things I do or say online might make them feel (*ask students to reflect on how they would feel.*)
- not sending mean or bullying messages or forwarding them to other people.
- creating and presenting my own work, and if I copy something from online, letting my audience know by sharing the website link to acknowledge the creator.

When I use digital technologies I **protect personal information** by being aware that my full name, photo, birthday, address and phone number is personal information and is not to be shared online. This means I:

- protect my friends' information in the same way
- protect my passwords and don't share them with anyone except my parent
- only ever join spaces with my parents or teacher's guidance and permission
- never answer questions online that ask for my personal information
- know not to post three or more pieces of identifiable information about myself.

When I use digital technologies I **respect myself and others** by thinking about what I share online. This means I:

- stop to think about what I post or share online
- use spaces or sites that are appropriate, and if I am not sure I ask a trusted adult for help
- protect my friends' full names, birthdays, school names, addresses and phone numbers because this is their personal information

- speak to a trusted adult if I see something that makes me feel upset or if I need help
- speak to a trusted adult if someone is unkind to me or if I know someone else is upset or scared
- don't deliberately search for something rude or violent
- turn off or close the screen if I see something I don't like and tell a trusted adult
- am careful with the equipment I use.

At school we/I have:

- discussed ways to be a safe, responsible and ethical user of digital technologies.
- presented my ideas around the ways that I can be a smart, safe, responsible and ethical user of digital technologies.

I will use this knowledge at school and everywhere I use digital technologies.

My ideas on safe and responsible behaviour

When I use digital technologies I **communicate respectfully**. This means I:

(write or draw...)

When I use digital technologies I **protect personal information**. This means I:

(write or draw...)

When I use digital technologies I **respect myself and others**. This means I:

(write or draw...)

Student agreement/licence

Student agreement/licence

(principal or teacher)

acknowledges the commitment of

(student)

**to being a polite, safe, responsible and ethical user of
digital technologies.**

As a student I continue to learn to use digital technologies safely and responsibly.
I will ask a trusted adult for help whenever I am unsure or feel unsafe.

Advice for Parents

At school the internet is mostly used to support teaching and learning. However, at home it is often used differently. Not only is it a study resource for students, but it is increasingly being used as a social space to meet, play and chat. The internet can be lots of fun.

If you have the internet at home, encourage your child to show you what they are doing online. If not, see if you can make a time to visit the school to see their work and how the school uses the Internet.

Bullying, stranger danger, gossip, telling the wrong people personal information have long been issues for young people growing up. These are all behaviours which now present online. These are not 'virtual' issues. They are real and can harm and hurt.

At home we recommend you:

- make some time to sit with your child to find out how they are using the internet and who else is involved in any online activities
- ask them to give you a tour of their 'space' if they are using a site which allows them to chat, publish photos, play games, etc.
- always get them to set their space to 'Private' if they use a social networking site like Facebook, Instagram (they are then in control of who can contact them and accesses their information)
- have the computer with internet access set up in a shared place in the house - not your child's bedroom
- negotiate appropriate times for your child's online activities and use of mobile phones
- ask questions when your child shows you what they are doing:
 - How does it work, how do you set it up and can you block out people?
 - Who else is sharing this space or game - did you know them before or 'meet' them online and what do you know about them?
 - Why is this so enjoyable - what makes it fun?
 - Can you see any risks or dangers in the activity - what would you say to warn/inform a younger child who was going to start to use the space?
 - What are you doing to protect yourself or your friends from these potential dangers?
 - When would you inform an adult about an incident that has happened online that concerns you?

Signature

I understand and agree to comply with the terms of acceptable use and expected standards of behaviour set out within this agreement.

I understand that there are actions and consequences established if I do not behave appropriately.
